Skylert

You can use Skylert to customize the types of notification you receive through the district-wide School Messenger notification system.

If you have changes to the phone numbers or email used in School Messenger, please make the changes and be sure to select the [Save] button.

NOTE: The primary phone number is the primary phone number used for the household, all members living in the same home. Family member 1, typically the Father, has the ability to change the primary phone. If you need the primary phone changed and cannot do so online, please contact the school office.

Primary Phone Warning ✕

Attention:
When changing your Primary Phone Number, it will be updated immediately in Skyward for all other members of your family. However, it will not update in Skylert for other guardians in your family until the next day. Other guardians in your family may login and modify the phone number in Skylert prior to the next day, if needed. Please contact your district if you have any concerns with this.

Additional Contact Info for Family, highlighted by the orange box below, is used for School Messenger notifications only. Be sure to select the [Save] button after making changes to any of these contacts.

NOTE: The Additional Contact Info for Family is unique to School Messenger. This information is NOT added to emergency contact information in Skyward that is used by office staff. Emergency contact information used by office staff can be seen in Family Access under Student Info (see previous page).
